Welcome to Our Product Catalog

Welcome to the world of innovation and sustainable energy.

At CleanErgy, we are proud to present a range of advanced energy solutions designed to power your life efficiently and responsibly. This catalogue showcases our cutting-edge battery technologies, energy storage systems, and smart solutions tailored for modern energy needs.

Discover how we are shaping the future of clean, reliable, and eco-friendly power.

CLEANERGY

About Us

CleanErgy, founded to revolutionize the energy solutions business, has been a trusted source of revolutionary battery technology, Chargers, and Battery Management Systems (BMS) CleanErgy was started in 2009. We want to provide businesses and individuals with creative, sustainable, and high-performing energy solutions that promote growth and efficiency. From cutting-edge Lithium Phosphate and Sodium Ion battery technologies for affordable power for fishing boat / trolling motors, golf cart, RV and Off-grid plus emergency power. CleanErgy is your partner in powering the future.

With a strong commitment to reducing carbon footprints, CleanErgy is helping drive the transition toward renewable and eco-friendly energy solutions.

About Our Batteries

We offer a wide range of batteries for energy solutions designed for multiple applications:

Lithium & Sodium Batteries

- Lithium Iron Phosphate (LiFePO₄) Batteries 13V 100Ah, 13V 280Ah,
- Sodium-Ion Batteries, 13V 200Ah.
- High-capacity energy storage batteries

Marine & Trolling Motor Batteries

- Lithium Iron Phosphate (LiFePO₄) Batteries, 26V 100 Ah.
- High-capacity energy storage batteries

RV & Off-Grid Power Solutions

- Lithium Iron Phosphate (LiFePO₄) Batteries, 52V 100Ah, 52V 35Ah,
- High-capacity energy storage batteries

Golf Cart Batteries

- High-efficiency batteries for golf carts 52V 100Ah.

These products are designed to deliver consistent power, long lifespan, and superior performance across various applications.

Battery Management Systems (BMS)

Battery Management Systems (BMS)

- Smart systems for monitoring battery health with Bluetooth apps.
- Improved safety and performance

Chargers & Accessories

- Fast and efficient battery chargers
- Durable and high-quality components

The Advantages of Our Products

Eco-Friendly Solutions

Reduce your carbon footprint with clean energy technologies.

Longer Lifespan

Our batteries are designed for durability and extended usage.

Excellent Performance

Consistent power output even in demanding environments.

Advanced Safety

Enhanced protection with modern battery management systems.

Lightweight & Efficient

Improves overall energy efficiency and usability.

Wide Range of Options

From small-scale to high-capacity energy solutions.

Lithium Phosphate Battery

Designed with top-notch safety features

13V 100Ah
1300Wh

Lithium Phosphate Battery

Designed with top-notch safety features

13V 280Ah
3,640Wh

Lithium Phosphate Battery

Designed with top-notch safety features

26V 100Ah
2600Wh

Sodium Ion Battery

Designed with top-notch safety features

12V 205Ah

Lithium Phosphate Battery

For Home Energy Storage

52V 315Ah
1600Wh

Why Choose CleanErgy?

- Trusted provider of sustainable energy solutions
- Innovative and future-ready technology
- Reliable performance across industries
- Customer-focused approach
- Commitment to environmental sustainability

CleanErgy is not just a supplier — we are your partner in building a cleaner, smarter energy future.

Customer Feedback:

“CleanErgy has been a game changer for us. Their chargers are fast, reliable, and the results are outstanding.”
